### Fighting Capper.

Local physicians have recently received the following letter from the secretary of the Golden Belt Medical Society in Central Kansas: Salina, Kan., July 20, 1911.

Dear Doctor;

The Golden Belt Medical Society wishes to call your attention to the following resolutions adopted at its meeting in Junction City, July 6th, 1911:

"Whereas, the members of the Golden Belt Medical Society here assembled, in view of the fact that Mr. Arthur Capper, editor of the Topeka Daily Capital, has announced his intention of being a candidate for republican nominee for Governor at the fall primaries, and that in his platform he makes special mention that he is against graft, therefore, be it

Resolved; that we announce our lack of confidence in his anti-graft declarations when he persistently lends his columns for advertising purposes to what the medical profession considers to be such a colossal graft as Carson and his Temple of Health; be it further

Resolved, that we request all physicians of good standing to use all honorable means to inform the public that the medical profession considers Mr. Arthur Capper, by accepting such advertising, as being in accord with and promoting this form of questionable practice and who would consider personal gain preferable to honest consideration of general public welfare."

The lightning has been playing some serious tricks on our people lately. John Schmidt lost a fine four-year-old mare and several pigs during the storm Thursday night. Sunday night, a bolt of lightning struck the chimney of the residence of A. A. Farmer of this city, but did little damage, besides giving the family a good scare. It seems that the electrical storms are usually numerous in this part of the state this summer.

The Baughman party which has been touring Colorado the past six weeks in the big Winton returned Saturday evening—two days ahead of the schedule. In the 1800 mile trip, there were only two delays, both being caused by punctures.

Mr. and Mrs. T. J. Smith spent Sunday in Guymon.

### Lower Express Rates.

As a probable result of the recent agitation for the abolition of the big express companies, the United States people together with

the Wells-Fargo, Pacific, and Adams express companies have issued a new rate effective last Tuesday. It takes off the extra charge formerly made for handling goods by more than one company. The new rate will give Liberal a much cheaper rate to Colorado via Delhart and may enable produce men to avail themselves of the good Colorado markets. Mr. Peyton, who is in charge of the local office can now furnish the new rates all points in the United States.
